

**Comments on the “State Appendix”  
for the Environmental Law Institute Report,  
*Halting the Invasion: State Tools for Invasive Species Management***

The Environmental Law Institute is responsible for the research contained in the appendix to the study, “Halting the Invasion: State Tools for Invasive Species Management.” We gratefully appreciate any information readers would like to submit regarding omissions or inaccuracies on mechanisms or programs approved through state legislation or agency rulemaking through February 2002. This appendix does *not* seek to identify those tools and programs available to states that are not established through legislation or administrative action, nor does it make an attempt to evaluate how state programs are enforced or implemented. Where possible, please indicate the legal citation for the law or regulation you are referencing.
