

Irene Kropp Bio

Ms. Kropp has extensive regulatory, technical, and managerial experience associated with her 30 years of experience at New Jersey's Department of Environmental Protection. She worked within and managed a variety of environmental programs including water supply, enforcement and site remediation. Ms. Kropp was responsible for the development of the Site Remediation Reform Act and the Licensed Site Professionals Program in 2006. She retired in the role of Deputy Commissioner at the NJ DEP overseeing all operational aspects of the department. She is currently a Senior Environmental Consultant at Langan engineering and serves on the board of PlanSmart New Jersey.
