

J.B. and Maurice C. Shapiro Symposium on Advanced Monitoring in Compliance and Enforcement, GWU, March 26-27, 2015

Panel Five: State Perspectives

Thomas Burack, Commissioner, NHDES, Moderator

Victoria Phillips, Director, Enterprise Information Office, MADEP

Katie Koelfgen, Manager, Air and Land Compliance, MNPCA

Mohsen Nazemi, Deputy Executive, Office of Engineering and
Compliance, South Coast AQMD

E-Enterprise for the Environment

Vision and Mission

Vision

A modern, well-integrated,

Mission

Protecting the environment through modern business processes, technology, and partnerships.

E-Enterprise for the Environment: Some Key Activity Areas

- Joint Governance
- Program Modernization (including Modernized Legal Framework)
- Continuous Process Improvement
- Information Technology (including Shared Services)
- Advanced Monitoring

Principle #9: Advanced Monitoring Technologies and New Data Collection and Analysis Techniques

- Current State

- Future State

Example: National Inspection and Evidence Management System

Advanced Monitoring Necessary but not Sufficient

- Advanced Monitoring holds a lot of promise, can help us do our jobs better and more efficiently
- Government must keep up with, evaluate, take advantage of advances as appropriate
- Advanced monitoring cannot solve all environmental problems
- There is still need for, value in human touch – example of NH Hazardous Waste Coordinator Certification Program

Not Just Technology – Innovative Hazardous Waste Coordinator Certification Training in NH

Questions?

- Tom Burack, Commissioner
