OUR MISSION
To transform the way buildings and communities are designed, built and operated, enabling an environmentally and socially responsible, healthy and prosperous environment that improves the quality of life.

Any Steering Committee or Committee has the ability to form short term, task focused Working Groups. These are created as needed and are not represented in this chart.
THE LEED® DEVELOPMENT PROCESS

THE DEVELOPMENT OF LEED IS GOVERNED BY USGBC’S BYLAWS, COMMITTEE POLICIES, ANTITRUST POLICY, COMMITTEE CODE OF CONDUCT AND THE FOUNDATIONS OF LEED

- LEED is a stretch goal—designed to challenge conventions in order to strive for ever greater levels of sustainability
- Generally standards are set to a minimum agreed upon level— the lowest common denominator of acceptable function and safety
- Meeting and melding of business interests and environmental concerns
- Appeals process
- Foundations of LEED set outs the process for the LEED Green Building Rating System. It includes the requirement for public See http://www.usgbc.org/Docs/Archive/General/Docs6103.pdf
LEED IS OPEN AND NIMBLE
